# COST SHARE PROGRAMS AVAILABLE TO ASSIST WITH ROTATIONAL GRAZING

DSP-3, Planned Grazing System, practice is available in participating counties through district cost-share. The main objective is to promote total resource management on pasture land through rotational grazing. Cost-share is available for water development, water distribution, interior fence, lime and seed.

EQIP, Environmental Quality Incentives Program, is available through NRCS. The program's main objective is to better manage present resources.

Cost-share is available for components necessary to install a grazing system as well as addressing additional on-the-farm concerns.

The United States Department of Agriculture (USDA) prohibits discrimination in its programs and activities on the basis of race, color, national origin, gender, religion, age, disability, political beliefs, sexual orientation, and marital or family status. (Not all prohibited bases apply to all programs.)
